

## Bladder Tanks

Highest quality 790gsm reinforced fabric

Custom sizes available

Tanks can be linked together to create up to and beyond 100,000 litres of total storage.

10 year warranty

Made in Australia

Each bladder tank is supplied with:

1 x 100mm threaded inlet

2 x 32mm threaded outlet with ball valve and tail for connection of pump hose

1 x ground sheet which covers the area your bladder takes up – this helps to stop organisms growing under the bladder, and helps to protect the bladder from sharp implements and therefore increasing its lifespan.

1 x 13mm breather vent centrally located on top of the bladder tank

Fitting kit (all piping is storm water rated)
